ABOUT ME

Front-End Developer and UX/UI Designer eager to begin a career in the tech industry. With training in web development and UX/UI design, I have a solid foundation in HTML, CSS, JavaScript, and React, and am skilled at creating visually engaging and user-friendly interfaces. Currently working in the agroindustrial sector, I am enthusiastic about transferring my teamwork and problem-solving skills to web development.

EDUCATION

Front-End Development

Academia Numen - 2023
Gained expertise in HTML, CSS, JavaScript, and React.

UX UI Design

Coder House - 2024
UX/UI design skills with tools like Figma, including user-centered design and wireframing.

Business Administration

Complejo Educativo Brigadier Lopez

TECHNICAL SKILLS

- Front-End Development: HTML, CSS, JavaScript, React.
- UX/UI Design: Prototyping with Figma, user-centered design, wireframing.
- Other Skills: Git version control, responsive design, bootstrap, NodeJS.

PROJECTS

Website and App design - Yoga Flow Studio

Website and app design for a yoga studio, where I handled both front-end development and UX/UI design. The site includes class and service information, with a clean and accessible design.
Technologies: HTML, CSS, JavaScript, Figma.

Website development - Bookstore

Participated in a group project for an online bookstore. The website features bestseller, classic, and fiction sections, along with shopping cart and stock management functionality.
Technologies: React, Git (collaborative work), HTML, CSS, JavaScript.

WORK EXPERIENCE

Operator at Cereal Port

Asociación de Cooperativas Argentinas — 2012 to Present
- Responsible for reporting the quality of grains such as corn, sorghum, soybeans, and wheat.
- Developed task management, communication, and organizational skills.

LANGUAGE

- Spanish: Native
- English: Intermediate
